InformaCast® AtlasIED®

SCHOOL SAFETY SOLUTIONS

For more than a decade, schools and districts across the country have trusted Singlewire Software to deliver solutions that address the three most critical components of student and teacher safety: detecting threats, notifying everyone, and managing incidents. With the ability to screen visitors at the door, send on-site and mobile notifications, and handle critical events from start to finish, Singlewire offers a complete set of solutions that delivers the information you need when it matters most.

DETECT THREATS

Screen visitors, monitor sensors, and provide one-touch activation to send alerts the moment someone identifies an issue.
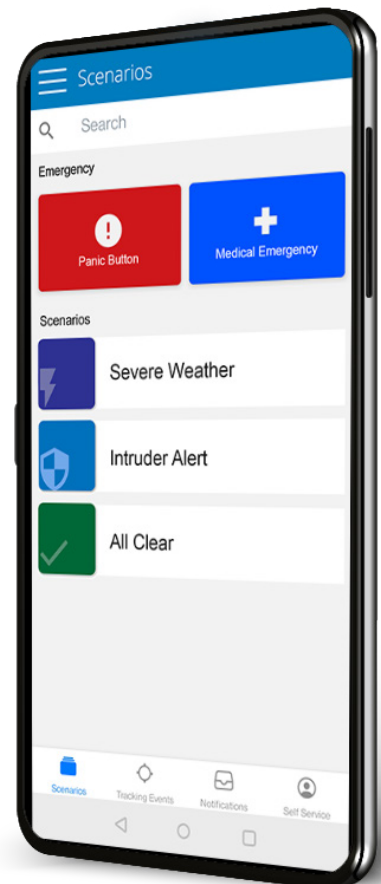

NOTIFY EVERYONE

Leverage intrusive audio, text, and visual alerts that penetrate every area of your building and interrupt ongoing activities.

MANAGE EVENTS

Schedule school bells, send announcements, and have all the tools to manage critical incidents, at your fingertips.

Safety & Communication Solutions

EMERGENCY NOTIFICATION
Get the word out so everyone receives the information they need to stay out of harm's way.

DESKTOP NOTIFICATION
Deliver alerts directly to desktops with network and cloud-based notifications.

INCIDENT MANAGEMENT
Manage events using real-time insights, safety resources, and flexible messaging.

VISITOR MANAGEMENT
Screen and verify visitors and add anonymous tip line capabilities.

BELL SYSTEMS
Schedule and automate your schools bells for the entire year.

PAGING
Utilize intrusive audio to send pages to phones, speakers, and analog paging systems.

PANIC BUTTONS
Use wearable and mounted devices, a mobile app, and keyboard shortcuts to request help.

ACTIVE SHOOTER SAFETY
Integrate gunshot detection systems to share alerts and trigger lockdowns.

911 ALERTING
Notify key personnel when 911 is dialed and send alerts that connect directly to dispatchers.

SEVERE WEATHER ALERTING
Monitor feeds from the National Weather Service to stay ahead of natural disasters.
