

Functional Add-Ons Priced Right!

Choose from a variety of panels to enclose unfilled space, provide ventilation or security in 19" electronic cabinets.

- All models include oblong mounting holes on E.I.A Centers
- Units are finished in textured black
- To enhance merchandising opportunities, all rack accessories have been repackaged in a distinctive Atlas Sound packaging

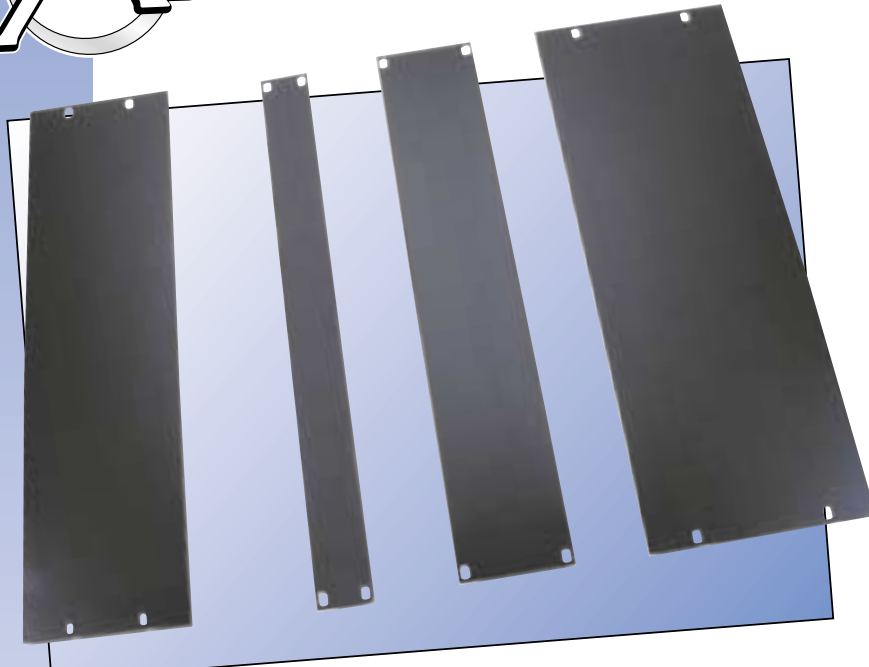

CB Blanks—Expert Panels at Economy Pricing

The new Atlas Sound **CB series** of filler panels are available in RU heights of 1 space to 4 spaces. The durable units are constructed of 14 gauge steel punched with EIA standard mounting holes and are finished in flat black epoxy to better blend in with other rack mount equipment.

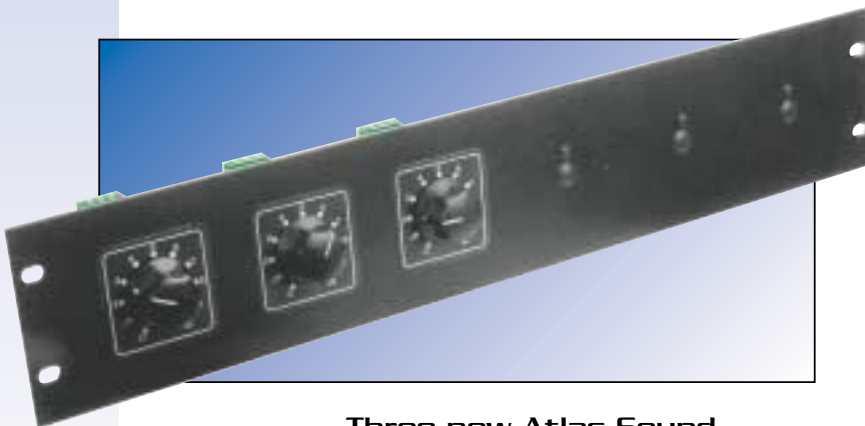

For convenient storage the **CB series blanks** are packaged in the new Atlas Sound blister pack system. This system allows the contractor or retail store to easily hang the **CB blank** on slat wall or peg board hooks. 1U and 2U models are packaged in 12 unit master packs while 3U and 4U models are packaged in 6 unit master packs for convenient ordering and stocking.

AT Plate

The new Atlas Sound **AT Plate** is perfect for rack mount applications where attenuators are required. The Atlas Sound **AT Plate**, a 2RU #14 gauge plate pre-punched to accommodate up to (6) Atlas Sound rack mount attenuators. Attractive black filler plugs are provided for applications where the **AT Plate** will not be fully "loaded". The plate is finished in flat black epoxy to better blend in with other rack mount equipment.

NEW SEC Series Security Covers

Designed to eliminate unauthorized operator tampering to rack mount equipment such as equalizers and rack mount mixers. 22-gauge construction features fine perforated steel insert for good visibility. Unique radiused corners provide a professional looking installation. Formed edges protect equipment from scratches. Available in 1U to 3U heights.

SEC Series

A-19 Series Solid Aluminum Blank Panels

Aggressively priced, solid aluminum panels for 19" wide equipment cabinets are constructed of 1/8" (3mm) thick aluminum. Available in 1U to 8U heights.

A-19 Series

S19 Series Steel Blank Panels With Returns

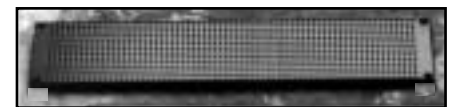

Solid 16-gauge CRS panels (1/8" thick) with formed returns on top and bottom provide added strength and provide for recessed installation. Available in 1U to 8U heights.

S-19 Series

SVP Series Perforated Vent Panels

22-Gauge CRS perforated panels provide for natural air circulation and heat dissipation of equipment-generated heat in 19" wide equipment cabinets. The SVP series is formed top and bottom for clean, recessed installation and additional strength. Available in 1U to 7U heights.
