

# BBG Series

## Copper Bus Bars

*BBG Series*

### Features

- Rack Mountable
- Available in 6 Lengths

### Applications

Atlas Sound copper bus bars are designed to be rack mounted and to be used as a "ground" for installed electronics.

### General Description

BBG Series. Depend on Atlas Sound's copper bus bars for convenient grounding of rack mounted equipment. To meet application requirements, bars are available in six lengths and mount to cabinet interiors with provided 1/4"-20 x 1/2" hardware.

### Specifications
