CERTIFICATE OF QUALITY COMPLIANCE

This certificate hereby attests that the product listed below has been manufactured, inspected, and tested to meet the highest standards of quality and compliance:

- IP116-D – Globalcom® Controller

This product has undergone substantial transformation within our U.S. facilities, where it has been precisely engineered, meticulously constructed, and thoroughly tested in full accordance with ISO 9001:2015 quality management standards, methods, and codes.

Furthermore, this product is fully compliant with the Buy America Act and the Trade Agreements Act, ensuring that it meets all federal guidelines and regulatory requirements for domestic sourcing and international trade compliance.

Comprehensive quality control and performance verification procedures have been performed to ensure that this unit is free from material or manufacturing defects. It meets or exceeds all applicable engineering specifications, technical drawings, industry standards, and customer-defined requirements, guaranteeing reliability, durability, and optimal performance in its intended applications.

Thank you,

Travis Pranschke
VP, Global Quality and Commercial Manufacturing
