Dante Enabled Speakers

Dante

Creating a Dante (Digital Audio Network Through Ethernet) audio system with AtlasIED's Dante enabled PoE+ powered loudspeakers is as simple as connecting them to the network. Factory speaker tuning is preconfigured while onboard DSP allows for user adjustment of EQ, levels, sound masking generation, and more. Perfect for applications in houses of worship, arenas, stadiums, conference centers, airports, universities, amusement parks, and transportation hubs.

FEATURES/BENEFITS

Dante Network Ready
Dante enabled devices can live on an existing network infrastructure to deliver clear and concise audible announcements to specific zones or areas.

Versatility
Multiple form factor options of IP PoE/PoE+ amplified speakers to accommodate various installation types and locations including indoor and outdoor models.

Auto Registration
Designed to automatically register with a Dante controller and AtlasIED's Discovery software.

Simple Configuration
Discovery and control software makes physically locating a speaker quick and easy as well as tuning of an individual speaker or an entire group.

Built-in Scalability
A virtually limitless number of speakers can be powered by network infrastructure and the secondary amplifier output makes expanding coverage areas quick and easy.

Remote Management
Review device status and reports from anywhere and easily manage systems with custom naming of each speaker and location tags.

DANTE POE PENDANT MOUNT SPEAKER

For paging and background music applications in high or open ceiling environments, the DA-PM8GD is an 8" coaxial IP loudspeaker that can be pendent or pole mounted. The integrated PoE+ amplifier with onboard DSP features Audinate's Dante digital audio transport platform.

DANTE POE WEATHER RESISTANT HORN

For indoor or outdoor applications, DA-APX is a weather resistant, PoE+amplified, constant directivity, high-output horn featuring onboard DSP and Audinate's Dante digital audio transport platform. It has a 60x40 dispersion pattern and projection angles can be adjusted in 15 degree increments.

DANTE POE IP SPEAKER FOR SUSPENDED CEILINGS

For use in paging and background music applications in suspended or grid ceilings, DA-22SYS is a 2' x 2' ceiling mount 8" coaxial IP speaker featuring an integrated PoE+ amplifier with onboard DSP and Audinate's Dante digital audio transport platform.
