

EJ2003-B

Medium Length Full Range Line Array Speaker System

EJ2003-B

Features

- Twenty Proprietary 3" Full Range Speakers
- Sealed Baltic Birch Cabinet Design
- Excellent Pattern Control to 115Hz Vertically
- Finished in Heavy Duty Black Duracoat™
- NL4 Speak-ON™ Connectors

Application

The A-Line EJ2003-B is ideal for use in small venues where excellent speech or live music reproduction is required. When used in conjunction with the A-Line EJW115A-B subwoofer to form an ELIJAH system, it can be used in the following applications.

- Houses of Worship
- Medium Music Venues
- Medium Auditoriums
- Lecture Halls
- Large Meeting Rooms

General Description

The Atlas A-Line EJ2003-B line array system is a 500W RMS power full range speaker system that is designed for use in speech and music reproduction applications for small venues like houses of worship, medium sized theaters, or schools. The unit consists of a sealed enclosure housing twenty proprietary 3" drivers. The EJ2003-B is designed to be used in conjunction with a powered subwoofer unit, the EJW115A-B, that powers the EJ2003-B with its built in class D amplifier.
